

Installation Accessories

Fire Cement

- Use around fire bricks, flues and boilers.
- Heat-resistant to 1250°C

Sealant

- High Temperature Sealant

Fire Rope

- Use around fire bricks, flues and boilers.
- Heat-resistant to 1250°C

Insulation

- The insulating properties of Vermiculite significantly reduce the loss of heat in cold weather and keep the interior cool in hot weather.
- Vermiculite is clean to handle, non-abrasive, sound absorbent, resistant to decay, odourless and non-irritant.

Smoke Pellets

- Smoke emitter pellets give off a dense white low-toxic smoke when ignited.
- For testing flues, chimneys, fans etc.
- 30 second burn time.

Core Drill Bits

- High performance dry cutting, diamond core drills. Cut clean accurate holes through bricks & blocks, producing exact size holes with almost no break out.
- Core can be removed in one piece avoiding the need for making good by a brick layer or plasterer.
- Suitable for concrete, brick, paving slabs, asphalt, limestone, clay bricks & aerated block. For use with Silverline arbor & guide drill.
